SAIVIKASH VIDYA NIKETAN CONCEPT SCHOOL
The best care for your children

L1 The tender petal level: Class K.G to 2

At Saivikash we offer theme based, age appropriate curriculum with activity based learning. We focus on educational, physical, mental, social and creative development of a child.

L2 The Exploratory level: Class 3 to 7

We believe young children are powerful learners who bring their ideas and interpretations of their experiences to their learning. With their natural curiosity and developing communication skills, they are eager to inquire about the world around them.

At Saivikash children join a community of learners in which each will have place to belong and a way to contribute in his or her own individual way. Every child has a unique pattern of growth and development. Our educators are responsive to individual differences in ability and interest. Integrated lessons are included in every lesson plan to imbibe moral values along with curriculum.

L3 The Expanding Horizon level: Class 8-12

At Saivikash, Expanding Horizon years programme addresses each student's varied levels of emotional physical, and intellectual development. Subjects are integrated to create authentic experiences for students while providing rigorous training for future success. Our curriculum enables students to establish links between topics, themselves and the 'Real world'

We believe that, this is a time for self exploration, self discovery and understanding of 'Who I am and Who I can be'.
